What is STEAM Education?

STEAM Education is more than just “STEM with the arts”—it’s an opportunity to re-think teaching through the use of authentic problem-based tasks, creative technology, and greater integration across disciplines.

Pitt’s STEAM Education course is a completely online, self-paced course that does not require you to log on at any specific time. Our course is designed to fit into your life. Best of all? You will earn Act 48 credits.

Course Benefits:

- Learn innovative teaching strategies from faculty experts
- No need to enroll as a Pitt student; simply pay for and begin the course!
- Roll this course into a Pitt master’s program or STEAM Certificate
- Affordable, flexible, and low time commitment (20-30 seat hours)
- Qualifies for Act 48 credits
